Andy and Staff-

I wanted to take a moment to thank you for the guidance during your analysis of my company since we began talking mid 2010. Your consultant, Jim Moore, was able to pick apart my entire operation and define areas where we could significantly increase our bottom line.

These improvements always existed but a fresh, experienced set of eyes brought them to the surface. At the end of the week I was very pleased that we had used your firm to help us increase our profitability.

Thanks again!

Sincerely

Rick Reynolds
