

Special Report

Video Podcast/Coming Soon!

Challenges of the Industry

Since the first of the year, my office has been inundated with challenges of our industry;

- I've received numerous personal telephone calls from clients indicating concerns;
- I've also received numerous telephone calls from trucking companies that just don't know what to do in this economy, and;
- Many clients and past clients have contacted me for my advice; have also asked me about my economic predictions for our industry

Due to the fact that the concerns have been so overwhelming, Ahern & Associates will be doing a weekly video podcast discussing issues that we believe are critical to our industry – trucking;

- If any of you have specific areas that you would like Ahern to review;
- Please forward it to me in email format, and;
- I will try to respond in our "Podcasts".

We are anticipating going live within the next month, as we are in the process of completing the first several video podcasts and are currently formatting.

In closing, I would like to take this opportunity to thank each and every one of you for your continued support of my business. If it was not for clients and readers, such as you, my business would not exist.

You are greatly appreciated.

Best Personal Regards,

A.W. Ahern, CPCM
Chief Executive Officer
