Andy Ahern, Transportation Analyst at Ahern and Associates Receives Accolades from Trucking Industry

Trucking consultant, Andy Ahern receives strong praise from trucking company owners he has recently worked with.

Phoenix, AZ, August 24, 2010—After helping hundreds of trucking companies pull through tough economic times in either the form of bottom-line balance sheet rectification or guiding a stressed owner through the perils of selling his trucking company, Andy Ahern has seen it all and is now receiving due praise for his work.

It's not often that CEO's and Chairmen of multi-million dollar trucking companies provide such distinguished words for one individual, but in Andy Ahern's case, that's exactly what they have done:

Century Carriers: "We started looking into Andy Ahern and Ahern and Associates and decided we didn't have anything to lose...he told us what was going to happen...but we didn't want to hear what Ahern had to say....we were able to survive and struggle a couple more months talking to different people and getting MORE bad advice....we finally decided OK we will give Ahern a try and WOW what a difference. We had to listen and do exactly what he said...he has great connections and will turn your business completely around if you only just take that one chance and listen....our business has turned around and we now have a great future planned."

Greatwide Logistics: "In the 3 years we have worked together, I continue to be impressed with your team's ability to find high quality acquisition targets....while there are good investment bankers who specialize in transportation and logistics, none are more focused on the industry...have the broad range of relationships...or can provide the type of attractive targets we have closed together.....I find tremendous value in my unconditional trust of you and your team and your integrity."

Christenson Transportation: "We hired Andy Ahern to do a business review...by giving us a roadmap to success he turned our business around within thirty days....he didn't just take our money and run (after the deal was done) he willingly became a sounding board and stayed on through all the tough decisions...most of all, we found someone we could trust to tell me the truth and not just what we wanted to hear."
